

## Mobile Games

## Production Line

Mobile games hold a significant place in our company's activity. Our highly professional team of more than 75 animators, designers, developers and programmers develops dynamic and eye-catching games.

Modern technologies enable us to develop games with great multimedia content. Flash and Java technologies, which allow high quality bitmap and vector graphics, gave the foundation for developing mobile games of a new generation.

At present time mobile games are completely comparable by quality with PC games. They include beautiful 2D and 3D graphics, involved action, high program logic and great number of levels.

We develop both single- and multi-player mobile games of all genres: Arcade, Classic, Logic, Maze etc.

## Snoopy's Slalom

The goal of the game is to ski down the hill, avoiding different obstacles (such as stumps, snowmen).

Snoopy has three lives that he loses by running into the obstacles. The number of lives is shown in the top left-hand corner of the screen. The part of traversed path is displayed in the right hand corner.

The game has several levels.

## Technical Details:

- Type: J2ME
- Sound: yes
- Size: 120 kb
- Highscore function: available on request
- Supported phones: Nokia 7650, Nokia 3650, Nokia N-Gage, Siemens S/SL 55, Sharp GX10 and other
